Civcorp has a long and prosperous relationship with Paynter Dixon, and further reinforced this by delivering the Kerrisdale Gardens project.

This project was located in Mackay, away from our home base of Brisbane, but Civcorp was still competitive and won this project based on our previous experience with Paynter Dixon delivering quality projects coupled with competitive market rates and pricing.

The Kerrisdale Gardens project is one of two stages of works for a new retirement village.

Civcorp's works included the cut to fill earthworks, the construction of a new drainage network, water and sewer main installations, internal asphalt roads with granular pavements, connection of the internal roads to the external Mackay City Council road network along with all associated works including kerb and channel, signage and line marking.

The works were completed by Civcorp's team on time and on budget, and as a result Civcorp was awarded the second stage of the Kerrisdale Gardens project.
