

LOGANHOLME STATE SCHOOL

Loganholme

Civcorp were engaged by the Department of Education, Training and Employment through being a Cardno 'Preferred Contractor' to deliver the Loganholme State School Stormwater Upgrade project.

Due to the works needing to be complete prior to the end of the financial year, construction was done during normal school operating times.

This complexity meant that Civcorp managed plant and worker interactions with those of both the school community and public.

In addition to this a portion of the works was also on Queensland Motorways Limited property requiring Civcorp to obtain an Authority to Work from both the Department of Transport and Main Roads and Transurban.

Civcorp delivered the project seamlessly whilst maintaining constant contact with the Loganholme State School and Superintendent (Cardno).

Overall the works were delivered on program and on budget to the satisfaction of the client and stakeholders.
